# IBM Generative AI for Cybersecurity Professionals

By completing this specialization, the learner has demonstrated that they can differentiate generative AI from discriminative AI, describe real-world generative uses, and identify and use popular generative AI models and tools for text, code, image, audio, and video generation. The learner can explain generative AI prompt engineering concepts, provide examples, and apply prompt engineering techniques that create demonstrably useful outcomes. The learner can identify useful, appropriate generative AI tools for cybersecurity and apply generative AI prompt techniques to generate and augment datasets and to develop and refine machine learning models.

Este certificado acredita que el estudiante completó un programa en línea impartido a través de Coursera. No constituye una inscripción formal en ninguna universidad o entidad, ni otorga por sí mismo créditos académicos, calificaciones o un título.
